**Subject: Notice of Water Rate Increase**

Dear Valued Customer,

At Western Cass Water Supply Corp., we are committed to providing you with safe, reliable, and high-quality water service. We appreciate the trust you place in us every day.

To continue maintaining and improving our water infrastructure, as well as meeting increasing operational and regulatory costs, we will be implementing an adjustment to our base water rate. This change is necessary to ensure the long-term sustainability of our system and to continue delivering the level of service you expect.

Effective June 1, 2026, **the base rate will increase too.**

\$39.00 for 5/8 X 3/4 meter

\$82.50 for 1 inch meter

\$126.00 High Volume Side

\$126.00 Low Volume Side

\$150.00 for 2 inch meter

This adjustment will help support essential system maintenance, infrastructure upgrades, and rising costs associated with water treatment and delivery.

We understand that any rate increase can be challenging, and we want to assure you that this decision was made only after careful consideration. Western Cass Water Supply remains dedicated to managing costs responsibly while maintaining the quality and reliability of your water service.

If you have any questions regarding this change, please do not hesitate to contact our office at 903.756.8789 or [westerncasswater@windstream.net](mailto:westerncasswater@windstream.net). Our team is here to assist you.

Thank you for your continued support and understanding.

Sincerely,

*Tommy Kessler, Board President*
